## NEW YORK CLOTHING HOUSE,

Corner Sixth and Market Streets, Louisville, Ky.

Are Manufacturers of Clothing, which enables them to retail goods at wholesale price and save the buyer 25 to 30 per cent. Such an opportunity was never before offered to the people of Kentucky. Our stock for the Fall and Winter is now complete, and is, beyond doubt, the largest ever offered in Louisville. Men's, Boy's and Children's Clothing in great variety, embracing all descriptions of goods at all prices. Our goods are marked in plain figures so all can see the price, and we only have one price. ### THE IMPOSSIBLE.

Men cannot draw water from an empty well, nor tell the stories that gossip tell.

Man cannot hear the sounds of a pealing bell.

Man never can stop the billows roar,

nor chain the winds till they blow no more,

nor drive true love from a maiden's door.

Man cannot overtake a fleeting lie,

change his wheat to a field of rye,

or call back years that have long gone by.

Man cannot a cruel word recall,

fetter a thought, be it great or small,

or honey extract from a drop of gall.

Man never can bribe old Father Time,

gain'te the height of a peak he cannot climb,

or trust the hand that hath done a crime.

Man never can backward turn his head,

or count the stars that are scattered wide,

or find a foot a trusty guide.

Man cannot reap fruit from worthless seed

rely for strength on a broken reed,

or gain a heart he hath cause to bleed.

Man never can true hope to win,

Please without and joy within,

Living a thoughtless life of sin.

### IT FOR TAT.

Pretty Belle Sutherland sat before the fire that evening with traces of tears on her cheeks, and bright drops still shining in the brown eyes, that her lover used to look so fondly into, and call "sweetest eyes were ever seen!"

## Protection Doesn't Protect.

When in a caucus they agree  
The Speaker to elect,  
Sam Randall's friends will come to see  
Protection don't protect.—Frankfort, Ky.

THERE will be a Democratic majority of 70 in the next Congress.

THE CITY OF NASHVILLE TENN., has decided to have a permanent Exposition after this, and will arrange for a capital of \$300 for the purpose.

AT PROSPECT PARK, N. Y., last Friday Keenan's gelding Frank, trotted a mile in 2:08 which is the fastest time on record.

A NEGRO child, left by its parents alone in the house at Russellville, amused itself by playing in the fire until its clothing caught fire, and it was burned to death.

THE WORLD'S INDUSTRIAL AND COTTON CENTENNIAL EXPOSITION to be held at New Orleans will be opened the first Monday in December, 1884 and continue to May 31st, 1885.

SOME papers are urging a repeal of the law against carrying concealed deadly weapons. We trust that their advice may be rejected. If the law is tampered with at all, make it a disqualification for voting or holding office.

THE LOUISVILLE COMMERCIAL published an account of a difficulty some years ago between Maj. Crumbaugh and Logan McKeever, and says that Crumbaugh challenged McKeever to fight a duel. If this be true, Crumbaugh is disqualified from holding office, Federal or State.

F. M. SHIELDS, of Adams county Miss., is the inventor of a gun which shoots 400 balls at the explosion of one cap. It has forty-nine barrels, and it is claimed that this murderous weapon can kill 800 men out of a regiment of 1,000 at a distance of 100 yards. The name is the "Mississippi Sweepstakes."

LOGAN McGEE took the right view of the challenge to fight a duel sent him by Maj. Crumbaugh. He replied as follows:

"Your challenge received. You can kiss my foot and go to the devil."

LOGAN McKEEVE.

That was a good way to work off such an affair of honor with the Majah.

SAMUEL J. TILDEN, the "uncrowned king of every true and loyal Democratic heart, can lick the Republicans out of their breeches and boots.—*Mulchey's Echo*.

Yes, he did it once, but had not the courage to contend for the position to which he had been lawfully elected. No more Tilden our'n. We want a man like "Hickory Jackson," with nerve to say, "I have been elected President, and by the eternal I intend to be installed and fill the office."

ROGER A. PRYOR, one among the many distinguished lawyers of New York bar, and one of the principal actors and defenders of the South, in the late civil war, has turned up in London, England, as one of the counsel for O'Donnell, charged with committing murder and who claims to be an American citizen and entitled to all the rights, privileges and immunities, as such. It is the desire of the American people to see and have the perpetrators, aiders and abettors of crime, punished, but it looks as if the oppressions of Old England, heaped upon the Irish citizens, knew no bounds or limits.

Let the Law-Breakers Support Them.

Our Representatives to the next General Assembly should be requested to favor a law paying the Commonwealth's Attorney a salary, and stop the thirty percent, on fines and forfeitures.—*Wickliffe Plaindealer*.

No such arrangement would be fatal to the interests of commonwealth prosecutions. If the attorneys had good, fat salaries they would not be half so hard-hearted and cold-blooded as they are. Let the law-breakers continue to support them, if any breakage is made, let the salary be taken away entirely, and the percentage of fines and forfeitures increased.—*Russellville Herald-Enterprise*.

## The Outs.

The indications are that there will be a lively and spirited contest over the Collectorship at Owensboro, Ky., now held by Maj. Crumbaugh, when Congress meets next Dec. The following list of partisans and followers in the wake of the Republican party, will be applicants for that position and with the all important and prerequisite adjunctive of \$4,500, to wit: J. W. Allison, of Henderson; Col. T. W. Campbell and Maj. L. L. Motley, of Bowling Green; Capt. Ed Farley and Henry H. Houston, of Paducah; Capt. D. R. Carr, of Glasgow; G. W. Jolly and W. H. Fann, of Owensboro; Col. Thomas B. Waller, of Gilbertsville.

## Another Baptist Meeting.

A Baptist revival meeting has been in progress at the Green River Baptist church, about one mile north of Cromwell, on the Morgantown road in this county, for the last two weeks, conducted by the Rev. B. F. Jenkins, a very able and eloquent divine. Very great interest and feeling are being awakened and manifested, and hopes are entertained that it will be a success.

The Baptists are making a grand and concerted strike all along the line at the sinners and unbelievers in this county.

## The Duty of the Legislature.

Almost daily, we see articles in our exchanges, calling attention of the Legislature to something that ought to be done for the welfare of the State &c. While this is in order, it might be well to call their attention to the fact, that the holding of a State or District office, which requires the incumbent to reside at the Capitol, has a very serious effect on the health of said incumbent.

If it were not for the fact that, some of our officers who reside at the Capitol retained their usual health, we might attribute it to local causes and urge the necessity of a removal of the Capital. Moreover, the citizens of that good and hospitable city, seem to enjoy unusual good health. Hence we are driven to the conclusion that the duties of some of the officers are too onerous for some constitutions. The bracing, life giving air of Colorado, is sought in summer, and about the time the wild geese go South, the "Land of Flowers" becomes very attractive, and to Florida they go, and in that delightful winter climate, the Italy of America, amid the groves of orange and lemon and the wild-woods—of the magnolia—and palmetto—they forget the labors and responsibilities of office holding, never, however, forgetting its advantages, for we have heard it said that they never get so sick that they can not draw their salaries with commendable punctuality. Now, what we want is this, that the Legislature shall appoint an investigating committee, to ascertain the cause and remove it.

The coldest snap of the season terminated a day or two since, and now we are having more delightful fall weather. Fine weather for killing hogs. George and Wils Rowe killed six hogs last week when averaged over 200 pounds, which they sold to Mrs. Ross in Hartford for 5 cents per pound.

Just as we Centertowners were about to play out for want of something to stay the inner man, Esq. W. I. Rowe came to our relief with three-quarters of the finest beef brought to this market since the days of the old Constitution Thanks.

Some tobacco has been sold in this vicinity for six cents per pound. The Barnett Bros., of Hartford, and Kimbley & Co., of Cervalvo, were the purchasers. Now's a good time to sell, no doubt.

Congress is progressing slowly. There is some good corn and some very indifferent.

The protracted meeting at Green River Union closed on the night of the 12th inst., after a continuance of three weeks and two days, with about ninety conversions and sixty additions to the church. Rev. Mr. Weaver did most of the preaching, he preached some very able sermons and very greatly endeared himself to the people of that church and community, indeed few ministers are held in higher esteem than that good man of God. His co-laborer, Rev. B. A. Iglesias, rendered some valuable assistance in and out of the pulpit. He too is fast becoming a workman that needeth not be ashamed. The house was well filled at each coming together. The best of order was observed during the entire meeting.

The first quarterly meeting for the Cromwell circuit will be held at Equally, embracing the first Saturday and Sunday in December. A protracted service will follow the meeting.

Rev. Dr. Bennett preached the funeral sermons of Uncle Stanford Tichener and Dr. A. V. Tatami at West Point church yesterday to a large congregation of friends and sorrowing relatives. The Doctor preached one of his usually able and logical discourses.

The preacher in charge of the church here came by here on his way from Point Pleasant on the first Sunday, his regular day, and finding no one at the church passed on without stopping and on the first Sunday in December he will be at the quarterly meeting at Equally, and will, therefore, not be here until the first Sunday in January next. It would seem that the services at this church are a dead formality at best, and if something doesn't occur to give a fresh impetus to the cause here they had nearly as well discontinue the church.

Aunt Garner Wade has been a great sufferer for several months from a chronic disease of the liver. Dr. Pendleton was called to see her last Saturday. Her many friends are fondly hoping she may soon be restored to health.

Let's have a bellows and inflate our President. She seems exhausted and not able to help us on our paper.

Miss Bettie Strand, a worthy young lady, daughter of our miller, and Mr. Johnson Heflin were quietly married the 11th inst. Rev. Mr. Weaver officiating. Love, peace and joy to the happy couple.

The Bone Bros. have their shop completed and well stocked, and will commence work in a short time.

Work on the Rowes' store house is progressing slowly on account of the inclemency of the weather.

Alvin, the popular salesman with Bowe & Son, made a flying visit to Spring Lick Saturday, returning Sunday.

A. G. Rowe and lady and Dee Rowe, of Spring Lick, spent several days with friends here last week.

We, your scrib and family had the honor of a very pleasant call from Judge J. C. Townsend and his intelligent bride while on their way from South Carrollton Friday and Saturday last. Mrs. Townsend is an old and highly esteemed acquaintance of ours.

Let me welcome you, my friend "Sojourner," of Island, to the scribistic circle. Your bright and newsworthy letters are eagerly looked for.

purpose; putting it in the form of a proportion, the relation is readily perceived; As the \$3 demanded by the government is to the \$2 paid by the people, so the \$2 demanded by the government is to the \$2 paid by the people; since the product of the means equal the product of the extremes, the relation stands 6:6; or, in other words, the government concedes 33½ per cent, and the people get that concession and no more.

Let us suppose that the purchaser saves 50 per cent, and that on the 1st day of November the post office department conceded 33½ per cent; it would still have 66½ per cent, and the people would have gained 50 per cent; and on the 2nd day of November another concession of 33½ per cent is made—the department would still have 33½ per cent, remaining, and the people would have gained 50 per cent, a second time. On the 3d day of November a third concession of 33½ per cent is made, but in doing so the department concedes all it has, and the people have gained 50 per cent, a third time, that is, the government would have given 100 per cent, and the people would have gained 150 per cent, or 50 per cent, more than there was to give. Notwithstanding the absurdity of this position, it is absolutely true, if the one dollar gained is 50 per cent, of the two dollar investment.

Tobacco is selling at from five to eight dollars.

Sweet potatoes are an average crop while Irish potatoes are about one-third. Wheat looks well considering the late sowing, but not a full crop soon.

Sorghum a fair yield and fine quality.

Stock in fine condition and selling generally at good prices.

Health is generally good. The only case of sickness is the infant son of Mr. Anthony Stevens, who has brain fever, and is not expected to live. The parents have our most profound sympathy, for we have lost a dear little boy with the same terrible disease.

Our fellow-citizen, Mr. Virgil Taylor, and the Misses Sue and Era Taylor have just returned from the great Southern Exposition. They are highly pleased with their trip. Mr. Taylor is having a large crib built in addition to his already large barn.

Mr. H. B. Taylor is also building an addition to his barn.

Mr. J. W. Taylor has had considerable work done on his dwelling, and when complete will have as comfortable and roomy a house as any in our midst.

His statesmanship has ever been bounded by the city of New York, and the advancement of his bonds and stock.

He has ever been a giant monopolist, and he has never seen the day that he would not have sacrificed every right and interest of the people for his personal aggrandizement.

If he has ever done an useful thing, either personal or political, the world has yet to learn it.

He has systematically sacrificed his most devoted friends, as well as his kinsmen to his own selfish ends.

He sacrificed the Democratic party at the last Presidential election because it refused to nominate him for President, and he is now preparing to defeat a second time if he does not head its ticket.

### How to Milk.

A milker should learn to milk quickly. Slow milking will rain any cow, and there is little doubt that many cows are made unprofitable by bad milking. As soon as the flow of milk begins it should be drawn as rapidly as possible. Stripping with the finger and thumb is a bad practice, and should be unlearned at once and the whole hand used to milk with. By persevering one will soon be able to milk very short teats if the hand is moderately small. The best milkers have small hands; strength of wrist will come in time.

### A Little Sermon About the Weed.

Then shall the kingdom of Satan be likened to a grain of tobacco seed; which, though exceedingly small, being cast into the ground, grew and became a plant, and spread its leaves rank and broad so that huge and vile worms found a habitation thereon. And it came to pass, in the course of time that the sons of men looked upon it, and thought it was desirable to look upon, and much to be desired to look upon, because it will soon be able to milk hand to hand with. By persevering one will soon be able to milk very short teats if the hand is moderately small. The best milkers have small hands; strength of wrist will come in time.

**Eating at Night.**

It is thought injurious, but unless dinner or supper have been late, or the stomach disordered, it is harmless and beneficial, if one is hungry. Invariably the delicate should always eat at bedtime. This seems heretical, but is not. Animals after eating instinctively sleep. Human beings become drowsy after a full meal. Why? because blood is soluted toward the stomach during fasting, becomes less dense and the powers grow dormant. Sleep therefore ensues. This is physiology. The sinking sensation in sleeplessness is a call for food. Wakefulness often is merely a symptom of hunger. Gravely the desire and you fall asleep. The feed will be stronger at dawn if they eat on going to bed. Fourteen hours lie between supper and breakfast. By that time the fuel of the body has become expended. Consequently, the morning toilet fatigues many. Let such eat at bedtime, and take a glass of warm milk or beef tea after rising. Increased vigor will result. "But the stomach must rest." True. Yet when hungry we must eat. Does the infant's stomach rest as long as the adult's? The latter eats less often merely because his food requires more time for digestion. Seldom can one remain awake until 10:30 or 11 without hunger. Satisfy it and sleep will be sounder.

During the night give wakeful children food. Sleep will follow. The sick should invariably eat during the night. This is imperative. At night, the delicate and children may take slowly, warm milk, beef tea, or oat-meal gruel. Vigorous adults may also eat bread and milk, raw oysters, all, of course, in moderation. Do not eat if not hungry—eat if you are. —A Boston Physician.

**Watson's Neuralgia King.**

This is one of the best remedies for Neuralgia ever invented. It is not a liniment, but is a medicine to be taken internally, and cures by going right to the root of the disease. A lady who had tried many other things, without relief, tried Neuralgia King, and was immediately cured. We guarantee it in all cases, when used according to directions.

**How to Cure Gossip.**

Adopt this rule: Let all who come to you with stories about mutual acquaintances know that you intend as soon as your duties allow, to wait upon the parties spoken of disparingly and repeat just what was said, and who said it. Still better, take out your memorandum book and ask the party to allow you to copy the words, so that you can make no mistake.

You will have to do this probably not more than three times. It will fly among your acquaintances on the wings of the gossips, and persons who come to talk against other persons in your presence will begin to feel as if they were testifying under oath.

But you ask, "Will it not be unman to go off and detail conversation?" Not at all when your interlocutor understands that he must not talk of an absent person, in your presence without expecting you to convey the same words to the absent person, and the name of the speaker. Moreover, what right has any man or woman to approach you and bind you to secrecy

### Damon and Pythias.

You seldom see such friendship as existed between Damon and Pythias. When Demetrius, the tyrant of Syracuse, condemned Damon to death for denouncing him at a public meeting of the city council, in which he represented the fourth ward, Damon asked the privilege of running over to Lake Chauncyana where his wife was spending the summer, for the purpose of bidding her farewell, and Pythias agreed to go in jail, in his place, as security for his return, having no real estate to pledge.

Damon is as well known, got back in the nick of time, though it was a tight squeeze to do it. The tyrant was struck with admiration that he released them both.

That was a great many years ago. Had it been in our day, Damon, instead of coming back, would have kept right on for San Francisco and taken the first steamer for the Sandwich Islands. Yes, and he would have borrowed all the money Pythias had before leaving Syracuse, and like as not, coaxed Mr. Pythias to run away with him.

As read so much about the obligation laid upon the wife to be a partner in the business, and the husband to be a partner in the home, it would produce a heretic in the world, the world would not be able to bear it. Damon is a good man who would not produce a heretic in the world, the world would not be able to bear it. Damon is a good man who would not produce a heretic in the world, the world would not be able to bear it.

And as for Pythias—he, the world would not produce a man who now, when his friend had a halter around his neck. The Pythias of to day might make application for a card of admission to the hanging, and sell it to a newspaper reporter, but that is about as far as his friendship would permit him to go.
